

Spring Medicine

Is a necessity. You need it, your wife or husband needs it, your children need it—everybody needs it. The best is

HOOD'S Sarsaparilla

It is the best because it has the most curative merit, is the most economical, cures the most people.

It cures spring humors, bad blood, scrofula, eczema, rheumatism, when all others fail.

Buy a bottle and begin to take it today.

100 Doses One Dollar

Sarsatabs To meet the wishes of those who prefer medicine in tablet form, we are now putting up Hood's Sarsaparilla in chocolate tablets called Sarsatabs as well as in the usual liquid form. Sarsatabs are prepared from Hood's Sarsaparilla itself by a process of

evaporation and distillation, and have identically the same curative properties. Sold by druggists or sent promptly by mail on receipt of price. C. I. Hood Co., Lowell, Mass. Guaranteed under the Food and Drug Act, June 30, 1906, No. 524.

Paris Hotel Faces Strike.

Paris, April 20.—The hotel servants are threatening to strike in sympathy with the striking waiters who were joined yesterday by some cooks and kitchenmen. Republican guards have been stationed before most of the cafes in order to prevent violence.

Ginger Champagne, Sarsaparilla, Ginger Ale, Lemon.

126 North Main St., Barre, Vermont.

Rexall
BEEF, WINE AND IRON.
Fine for spring laziness and creates an appetite.

RED CROSS PHARMACY.

LEAPS FROM HOTEL WINDOW

Woman Sister of Christian Science Leader

TAKES HER OWN LIFE

Miss Mary E. Tomlinson of Concord, N. H., Showed Signs of Mental Disorder Thursday and Was at Relief Hospital.

Boston, April 20.—Miss Mary E. Tomlinson of Concord, N. H., a sister of the Rev. Irving C. Tomlinson, one of the members of the board of trustees of the Christian Science church, and a defendant in the suit brought by "next friends" for an accounting of the property of Mrs. Mary Baker G. Eddy, committed suicide early yesterday, by jumping from a window in the Parker house. The woman died in the hotel office a few moments after her fatal leap.

It is believed that Miss Tomlinson was demoralized at the time she ended her life. Miss Tomlinson came to Boston Thursday morning. Soon after coming from the Union station she appeared at the apartments of Mrs. Ida Berkman, at 23 Barton street, in the West End section of the city. When Mrs. Berkman, to whom she was a stranger, asked her what she wanted, she replied that she wanted a drink of water. A few moments later she pretended to be deaf and dumb, and acted in a manner that showed her to be mentally unbalanced. It was necessary to summon the police to eject her from the apartments.

She was then taken to the relief hospital, where it was said that she was suffering from hysteria. Later she went to the Parker house, where she was assigned a room on an upper floor. Nothing more was heard of her until her body was found on the sidewalk by one of the hotel porters.

Relatives at Concord were notified and took charge of the body. Well Known in Concord. Concord, April 20.—Miss Tomlinson had been a resident of Concord since early in 1890, when she accompanied her brother, the Rev. Irving C. Tomlinson, on his appointment as first reader in the First Church of Christ, Scientist, in this city. Soon after this Miss Tomlinson was appointed second reader in the church here and continued as such until January, 1906, when she and her brother were succeeded by Prof. Hermann S. Hering and Miss Mabel C. Gage, respectively. Miss Tomlinson was a prominent figure at the dedication of the new Christian Science church here, in July, 1904, and read the history of the church at each of the dedicatory services. She was also a teacher in Christian

Science and practiced that faith throughout the city. She was well known in Concord, and her home was a center particularly for visiting Scientists. She had not been known here to be suffering from any mental trouble, and as recently as a few weeks ago had entertained a house guest from Chicago and had attended theatrical entertainments in this city.

SPLENDID TO USE.

This is the month to rid the system of blood disorders of all kinds, of which rheumatism is the most prevalent symptom and hardest to overcome during the winter months, when the kidneys have failed to filter out the uric acid and other waste materials.

A well known authority writes that the worst forms of rheumatism, blood disorders, also kidney and bladder weakness, are often readily relieved and prevented during an entire year by taking for a little while one teaspoonful of the following mixture after meals and at bedtime, viz:

Fluid extract dandelion, one-half ounce; compound Kargon, one ounce; compound syrup sarsaparilla, three ounces.

A local druggist states that these are harmless ingredients, which, any good prescription pharmacy can supply and anyone can easily mix them at home by shaking in a bottle.

It is said by many of the old folks that the above mixture, if taken during this month, will aid years to life and prevent many a sick and miserable day during the year.

Science and practiced that faith throughout the city. She was well known in Concord, and her home was a center particularly for visiting Scientists. She had not been known here to be suffering from any mental trouble, and as recently as a few weeks ago had entertained a house guest from Chicago and had attended theatrical entertainments in this city.

KING OF ITALY NOT LIKELY TO VISIT THE KING OF SPAIN

Papal Injunction Would Prevent Alfonso Returning Call.

Rome, April 20.—The report that King Victor Emmanuel will visit King Alfonso is not considered well founded. It is also pointed out that since the late King Humbert, visited Emperor Francis Joseph in 1881 and the latter did not return his visit because of the prohibition of the pope, the king of Italy has determined not to visit any foreign ruler unless it is beforehand established that the visit will be returned in Rome. It is not believed that King Alfonso will disobey the papal injunction now that he has asked the Pope to stand as godfather for his expected child.

The indisposition of Queen Helena, which prevented her from meeting King Edward and Queen Alexandra, continues, and it is now complicated by fever.

PEACE CONFERENCE WORK SATISFIES THE PRESIDENT

Pleased at the Moderate Tone of Resolutions Adopted.

Washington, April 20.—Representative Richard Bartholdt of St. Louis, fresh from the meeting of the American Peace Congress in New York, saw the president and told him about the work of the congress.

Dr. Bartholdt told the president the White House letter was well received, and that the congress was satisfied with the president's attitude in favor of arbitration. The president is understood to be satisfied with the work of the meeting and the moderate tone of the resolutions adopted.

MITCHELL ADVISES MEN TO GO BACK TO MINES

Strike in Canada Said to Be Due to Misunderstanding.

Ottawa, April 20.—The labor department has received word that President Mitchell and Vice-president Lewis of the United Mine Workers have telegraphed the men at Fernie and the other western mines asking them to return to work. Vice-president Lewis has started from Indianapolis to the scene, and an interview has been arranged between him and the operators on Tuesday next.

The cause of the trouble, so far as is known here, seems to be a misunderstanding. The new act requires thirty days' notice to be posted for any change in conditions. One or two mines, in compliance therewith, posted notices of a reduction. The miners did not understand that this was in accordance with the provisions of the act and quit.

The Unsportsmanlike Angler.

"Neath the sunken rock by the waterside The old black bass and his children hide. Just as the day fades into night An angler throws a tinsel fly. The cast is true, the drop is light, A young bass lifts a hungry eye. But the hook-seared veteran bars the way.

With a wave of his tail, "Back, quick I say! You'll see if you look There's quite a sharp hook! Swim free of the fly that is hatched in a hook!"

"Tis a knowing hand at the rod up there: Lie low and mock at his gaudy snare." A Seth-Green next the angler tried; A Henshall with a peacock tail; Lure after lure he deftly tied, And cast and cast without avail. Those bubbles that break broken to rise: A bass laughs below with tears in his eyes: "My friend out of sight, You throw them all right, But we're not dining out, we thank you, to-night."

"Neath the sunken rock, bass little and big, On their tails are joyously dancing a jig. "And now we'll eat," the old bass cries, "See what draws near with tempting squirms. This is indeed a glad surprise." He bolts a bunch of juicy worms. While orphaned bass are mourning for their sire, An angler takes a drink and builds a fire. "Though some may claim It's not in the game, There's no flies on the taste of this bass, just the same." —Forest and Stream.

TO CURE A COLD IN ONE DAY

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

MONTPELIER LOST FIRST

Defeated by Norwich University in a Cold Game

THE SCORE WAS 5 TO 0

Thomas, Montpelier's Pitcher Did Good Work, Pulling Himself Out of a Big Hole at One Time With Three on Bases.

Northfield, April 20.—The opening game of base ball at Norwich university took place yesterday afternoon on the parade with Montpelier seminary with a small attendance. At the end of the eighth inning the game was called because of the cold weather, with a strong north wind blowing during the game. The score was 5 to 0 in favor of the home team.

Norwich university showed up unusually strong for the first game. Hayden, the new catcher and a member of the freshman class, did exceptionally good work. This is the place where Norwich university have been weak for the last two years.

Thomas, who did the arm work for the visitors, showed up well. Once with three men on bases he brought himself out of a big hole by striking out the next three men up. In the last three innings he was hit quite freely, but was not given the support which he ought to have had.

Innings 1 2 3 4 5 6 7 8 9
Norwich 0 0 0 3 2 0 0 5
Batteries, Cole and Haden, Pike and Thomas; struck out, by Cole 5, by Thomas 8; base on balls, off Cole 2, off Thomas 4; umpire, Hubbell; time, 1 hr. 35 min.

Yesterday's National League Scores.

Snow Falls in New York.

New York, April 20.—Snow in appreciable quantity fell in New York city and vicinity yesterday, thus adding another record to New York's already record-breaking spring.

The weather bureau had predicted showers for yesterday with a moderating temperature. The temperature was lower and the east wind turned the showers to snow by the time they struck the city.

Politics in Frick-Harriman Break.

New York, April 20.—Rumors were current in Wall street yesterday that the recent break between Henry C. Frick and E. H. Harriman was due to the political ambitions of the steel magnate to succeed Boies Penrose as senator from Pennsylvania.

MISSING CLERK BACK.

J. D. White, Chicopee, Mass., Officer, Gives Himself Up.

Springfield, Mass., April 20.—John D. White, the missing city clerk and treasurer of Chicopee, gave himself up to the Springfield police late Thursday night. He walked into the police station and said to the policeman in charge: "I have come to give myself up." He was so changed in appearance, from shaving off his mustache and not wearing his eyeglasses that the policeman did not recognize him.

White was turned over to Captain O'Malley, who notified Mayor Albert E. Taylor and City Marshal Hamilton of Chicopee.

At an early hour yesterday they took him to Chicopee. White mysteriously disappeared last August. It was thought that he had committed suicide, but his family, from the first, believed him to be alive. He was in a dazed condition, and yesterday could give no satisfactory explanation of where he had been. He said he came from New York, and had also been in Portland, Me., and in Canada.

SPRING FANCIES.

Charming "Harness" Effects—Choosing the Spring Hat.

Very charming things are done with black ribbon velvet in the way of suspenders, or "harnesses," as they are popularly called. Jet and enameled buttons are effectively used on them; also rhinestone buckles.

In choosing your spring hat, if your hair is at the pepper and salt stage, do not select one with a light colored trim. Either a rich dark color or black is more suitable. Light or bright colors give a faded appearance that is most unbecoming to the hair, but with snowy white any light or bright color that suits the complexion may be worn. Sleeves are really as short as ever in spite of the prediction that they would be long. And they are made with shoulder puffs and three great full lace elbow flounces.

With evening gowns an Egyptian fashion has broken through the walls.

Chief Flynn at Newark Investigating Conspiracy of Anarchists.

Newark, N. J., April 20.—Chief Flynn of the New York district of the United States Secret Service, is here investigating an alleged plot on the part of Pennsylvania anarchists, whose headquarters are said to be at Hazleton, to kill President Roosevelt.

The story of the alleged plot was first told to the late Chief of Police Adams by Jan Bartula of 79 Mercer street, who recently came from Anderson, Pa., and who claims to be a member of the band of conspirators. He said they had gone back on him, and it was with a desire to be revenged upon them that he exposed the plot. He gave the chief several names of persons whom he said were implicated in the plot. He further said that Czolgosz, who assassinated the late President McKinley, was a member of the band.

Shortly before he ended his life Chief Adams turned the information over to Chief Flynn and the latter has had several men ever since on the case. They have interviewed Bartula and he told them practically the same story.

COMMERCE OF THE WORLD.

Imports Are \$13,750,000,000, and Exports \$12,500,000,000.

Washington, April 20.—The international commerce of the world now exceeds \$36,000,000,000, of which \$13,750,000,000 are imports and \$12,500,000,000 exports, according to a statement issued by the Bureau of Commerce and Labor yesterday.

Of the imports of countries other than the United States, 14.1 per cent. are drawn from this country, and of their exports 9.5 per cent. are sent here. These figures of exports include only the domestic products exported, but do not include the foreign or colonial merchandise brought into the country and re-exported. The total imports of the countries other than the United States are given at \$12,513,145,000, and the share of these imports drawn from the United States is \$1,798,335,000, or 14.37 per cent. of the total.

The total exports of the countries other than the United States are given at \$10,031,113,000, or 9.57 per cent. of the total.
